

Q Building	September 10th	Author
PS01	Groundwater Monitoring for resources management in an arid region using geophysical methods	Ahmed Murad
PS02	Impacts on reservoir water storage and hydroelectric energy production under climate change scenarios	Diana Sousa
PS03	Seasonal variations in sap flow in olive under tree irrigation regimes in very hot and dry conditions of 'Vilariça Valley', a region in the Northeast of Portugal	António Esteves
PS04	Evaluation of the performance of models to estimate leaf conductance in olive (Cv. Cobrançosa) in field grown conditions of Terra Quente Transmontana	Anabela Fernandes-Silva Afonso
PS05	Effects of drought on water quality	Anna Hrabankova
PS06	Metagenomic overview of bacterioplankton diversity from Estremenho karst massif aquifer (Portugal)	Daniela Figueiredo
PS07	Water Quality Assessment of Agricultural Runoff in the Upper Mara River Basin, Kenya	Kelly Fouchy
PS08	Export of Copper in a Basin Under Intensive Viticulture	Patrícia Ana Costa
PS09	Quality of water in a small-sized dam in the mountainous region of NE Portugal	Anabela Reis
PS10	An ecotoxicological approach to the assessment of environmental quality in karst aquifer	Ana Sofia Reboleira
PS11	Simulations of the influence of lake area on local temperature with the COSMO NWP model	Lukas Pop
PS12	Precipitation thresholds for drought recognition based on SPI: an application to Eastern Slovakia	Maria Manuela Portela
PS13	Characterizing drought events in Iberia during the 1901-2011 period using a gridded dataset	Irene Montero Brazo
PS14	Climate change of precipitation extremes in the Iberian Peninsula: an overview of the CLIPE project	Paulo Melo-Gonçalves
PS15	Lessons learned regarding homogenisation methods for climate data: a chronological review	Sara Ribeiro
PS16	Riparian Forests in a Context of Flow Disturbance: New Tools and Approaches to Support Ecological Research	Maria do Rosário Fernandes
PS17	Alteration of the river regime due to small hydropower schemes. Assessment of the natural and modified flow regimes	Miguel Mendonça
